

### FINE ART PRINTS

Produced to the highest archival standards, fine art papers are acid-free, pH neutral, and made from pure cellulose. They're inkjet printed with archival pigment inks that significantly enhance the visual brilliance of both your color and black & white images. These inks also have a substantial longevity that keeps your images beautiful for generations. Available in Smooth Matte, Velvet or Torchon.

#### SIZES | PRICE

12x18 - \$200  
16x24 - \$300  
24x36 - \$400  
40x60 - \$600

### METAL PRINTS

The brilliance of Metal Prints is unparalleled, Metal Prints show off vibrant colors in a way no other medium can. Using an innovative dye sublimation process, your custom images are printed directly onto high quality aluminum for a clean and lasting finish.

Choose between 'White Base Metal' or 'Clear Base Metal'.

'White Base Metal' is smooth, opaque base so no metal texture shows through the final image.

'Clear Base Metal' Allows the raw brushed metal texture to show through your image, more clearly in the white or light-colored areas than the dark-colored areas.

#### SIZES | PRICE

12x8 - \$300  
16x24 - \$400  
24x36 - \$800  
40x60 - \$1,600

Please note cost above does not include framing/mounts/shipping and handling.
